Announcement

Synnex ANZ advances Google Cloud Security

We are thrilled to share the exciting news of our expanded strategic partnership with Google Cloud, enriching our comprehensive portfolio through the integration of **Google Cloud Security**.

This milestone signifies a significant step forward in our collaboration with Google Cloud, opening up fresh avenues for partners and MSSPs to harness a powerful AI-driven, intelligence-led approach to cybersecurity.

Synnex partners can now supercharge their Enterprise Cybersecurity Practice by leveraging the robust Google Cloud Security suite, which includes Chronicle Security Operations.

[Read more about the partnership](#)

For further details on Google Cloud Security, reach out to our Google Cloud team at [✉ googlecloud@au.synnex-grp.com](mailto:googlecloud@au.synnex-grp.com)

Reminder!

Google Workspace Customer value-based Discounts & Incentives are live

As previously communicated by Google, there are changes in the discount and incentives structure for Google Workspace. Google Workspace changes were effective **April 1 2024**, and Google Workspace for Education changes are effective **July 1 2024**.

Update 1: Incentives Updates

Effective April 1, 2024, Google Workspace Rebates will change as per below:

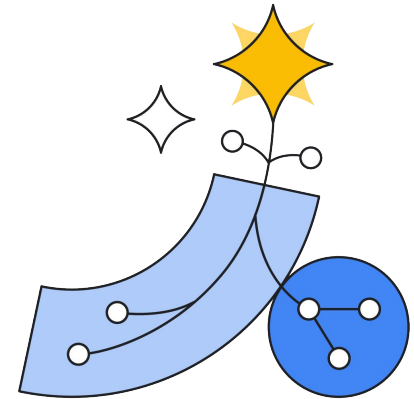

- Increased New Customer Rebate from 30% → 40% on ACV in year 1 for Premier Level Indirect Resellers.
- Increased New Customer Rebate to 8% → 15% on ACV in year 1 for Partner Level Indirect Resellers.

**Note: Minimum Order Value applies to be eligible for New Customer Rebate*

Update 2: Partner Discount Changes

- The partner program discount for renewal and upsell will change to 12%.
- The partner program discount for new customers offered by Google and Synnex including SKU upgrades remains 20%.
- All additional discounts for Google Workspace will be provided under a condition whereby the reselling partner must adhere to a maximum retail price.
- Transfer Margin Policy will be enforced by Google and discounts offered by Synnex will 2%
- Partner Discount changes applies to both Fixed Term Commit and Flexible Plans.

For further details, reach out to our Google Cloud team at [✉ googlecloud@au.synnex-grp.com](mailto:googlecloud@au.synnex-grp.com)

Channel News

Synnex End User Portal now live & available

Synnex End-user portal is a customer facing portal that Partners can invite end users to self-manage their Google Workspace (and Microsoft) CSP Subscriptions.

Build your own marketplace

Craft a unique brand identity with our fully customisable white-label platform that reflects your brand and offers your customers a unique, streamlined experience.

Accelerate adoption rates

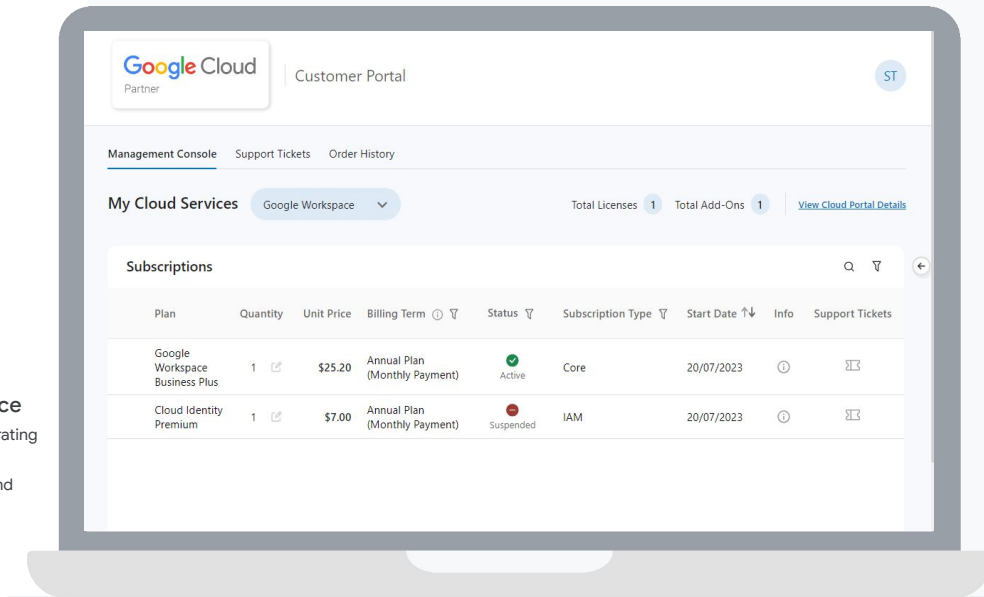

Boost end customer adoption rates through a user-friendly, modern interface and intuitive functionalities. Deliver a compelling experience that encourages users to explore upgrades or complementary products.

Seamless onboarding and customer experience

Transform onboarding with automated communications, integrating users seamlessly into your platform. Enable customers to track orders and manage account effortlessly, providing a smooth and hassle-free experience from the start

Optimise your supply chain

Elevate operational efficiency by streamlining your supply chain.

Launch: Guide to AI in Education

We believe AI is going to help learners, educators, and school communities unlock potential in ways we can't even imagine yet. From unleashing creativity to offering personal support to supercharging productivity, AI can advance the quest for understanding in all kinds of powerful ways

Share with your customers and education team today. Localisation in 20+ languages in progress.

<http://goo.gle/EduGuidetoAI>

Google for Education

A Guide to AI in Education

Google's history, and future, in AI

While AI is revolutionary technology, it's not new to us. In fact, it's already in many Google products - like Search, Gmail, Photos, and YouTube - helping make things better and safer behind the scenes. And with more recent advances in generative AI, tools like [Bard](#) and [NotebookLM](#) offer even more exciting new possibilities.

We believe AI is going to help learners, educators, and school communities unlock potential in ways we can't even imagine yet. From unleashing creativity to offering personal support to supercharging productivity, AI can advance the quest for understanding in all kinds of powerful and interesting ways.

Breaking down AI, ML, LLMs, and gen AI

How to make sense of all these terms:

- **AI** is computer programming that learns and adapts, with systems taught to mimic intelligent human behaviors.
- **Machine learning (ML)** is the technique that allows machines to learn autonomously from data.
- **Large language models (LLMs)** are machine learning models that can understand, predict, and generate human language.
- **Generative AI (gen AI)** refers to the use of AI to create new content, like text, images, music, audio, code, and videos.

A balance of bold and responsible

Google's approach to AI has always been about balancing bold with responsible, and when it comes to tools designed for education, we are especially thoughtful and deliberate.

This means applying our technological expertise and deep knowledge of the educational space, while always keeping educators in the loop: working directly with the education community to create products that are truly helpful in improving the teaching and learning experience. When schools use our AI-powered educational tools, they can feel confident that their experience is safe and secure, and that it's been responsibly designed with educators and students in mind.

Applying Google's AI Principles to our work in education

In 2018, we were one of the first companies to establish [AI Principles](#) as part of our commitment to developing technology responsibly. These are the questions we ask when applying these principles to our education tools:

1. Is it appropriate for education (responsible, safe, and secure)?
2. Is it clear to educators and students what the benefits of using it are, and where and how to start?
3. Is it helping all levels and backgrounds to succeed?
4. Is the educator looped into the student experience to help shape and guide (if needed)?
5. Is it enabling educators and students to utilize our workflows seamlessly?
6. Does it enable leaders to adequately and appropriately support staff and students?
7. Does it provide sufficient tooling and control for leaders?
8. Does it adhere to requirements leaders are beholden to for their institutions?
9. Does it provide leaders with the visibility and insights needed to complete their work?

AI can never replace the expertise, knowledge, or creativity of an educator - but it can be a helpful tool to enhance and enrich teaching and learning experiences.

Endpoint Education Upgrade

A new Google for Education solution that lets you manage **phones and tablets** easily.

Advanced account management

Seamlessly manage student and educator accounts from anywhere, including setting up accounts, controlling access, and resetting passwords.

Deployment and device management

Proactively manage your fleet in one central place to find devices, set device policies, and manage apps and extensions.

Strong security controls

Protect your school community by controlling user access to app-based identity and device context, and set rules and alerts to limit data loss and suspicious activity.

Available in flexible licensing options

Choose between managing your school's users or devices.

User-based license

- Great for schools that need flexible coverage that they can adjust each year
- Available on personal and school-owned devices*
- \$6.88 AUD per user/year

Device-based license [coming in H2]

- Great for schools that have shared devices that many students sign in to daily
- Available on school-owned devices only
- \$6.88 AUD per device/year [subject to change]

* Great for BYOD and 1:1 devices

GSEfE Transition: License assignment watch point

For large GSEfE to Plus transitions with 15k+ licenses, auto-assignment is still automatic, but may take time to propagate.

The admin console starts to assign the licenses automatically to the users immediately after acceptance, but completing the entire batch can take some time for larger institutions.

What Partners can do:

Educate: Ensure large customers are aware. Set expectations that there may be a brief disruption.

Plan: Time the acceptance of large transitions at the end of the day or on Friday to minimize impact.

Product Launches & Stock Updates

05

Stock update & availability

Please [request access to this sheet](#) for up-to-date Chrome Upgrade, Workspace and Zero-Touch Enrolment pricing along with current hardware availability, and [follow the Synnex Ordering Process](#) to place your order.

→ [Click here](#)

Google Chrome licensing ordering process

1

Reseller (you) is to complete the below Google Form, the purpose of this form is to identify key ordering information for both the Reseller and the end-user.

→ [Google Form](#)

It is highly important to ensure that the correct primary domain information is populated in the Google Form, if you have any queries, please email googlelicensing@au.synnex-grp.com

2

Reseller is to send an official purchase order (PO) to your Synnex internal account manager and cc googlelicensing@au.synnex-grp.com with matching PO Number, Product Code and quantities to what you've submitted to Google Form.

Details on your PO and the Google Form submission should match 100%, should there be any discrepancies, your Synnex account manager will contact you to clarify.

3

Off-Domain Email Address (on Google Form) is the end-user's secondary email outside of their organisation domain, it is used as a safety measure when the end-user is locked out of their domain email.

Without an off-domain email address, Google not be able to deploy your licensing order.

4

Once this process is complete, Synnex will process your purchase and expected turnaround time is typically 5 working days. Google will send automated licensing details directly to your end-user, while copying you on the email.

Synnex invoice to reseller will appear on your Synnex web login a day later.

No returns Policy

Reminder: As you're already aware Google has in place a strict no returns policy on Chrome Education Upgrade and Chrome Enterprise Upgrade.

Please ensure the domain, product and quantity is correct before placing the order, if you have questions feel free to reach out to the Synnex team for assistance.

Google Workspace ordering process

Provisioning Google Workspace is easily done via [Synnex's Cloud Marketplace](#) by following the below steps:

1 Create New or Select Existing [Synnex Cloud Customer](#) Entity

2 Enter your Customer's [Google Domain](#) for validation

For New Google Customers:

For Existing Google Customers:

3 Confirm the [Billing Term](#), and enter the [Users](#) required next to the [Edition](#) you'd like to purchase

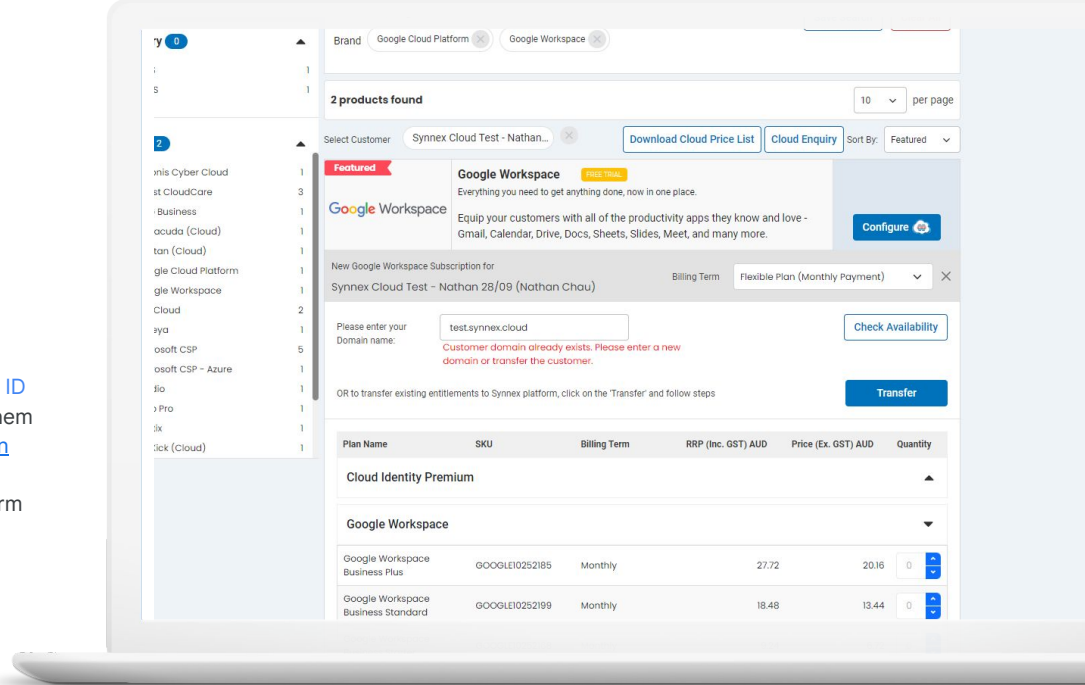

3 Click [Transfer](#) to initiate the Transfer Process

4 Follow the prompts to [Confirm Provisioning](#)

4 Provide your [Reseller Public ID](#) to your customer and ask them to generate a [Transfer Token](#)

5 Follow the prompts to confirm Transferrable [Billing Term](#) & [Subscription Details](#)

6 Confirm Transfer
